SUMMARY

Highly skilled Senior Software Engineer with over 5 years of experience specializing in frontend development. Proven ability to lead development teams, enhance user experiences, and implement best practices in UI/UX design. Adept at collaborating with cross-functional teams to deliver high-quality web applications that meet business objectives.

WORK EXPERIENCE

Soroco - Senior Software Engineer

Jan 2024 - current

Bangalore

- Contributed to the development of a data-intensive **Angular** application utilizing **GraphQL**, meeting a tight deadline of 2 weeks and delivering a performant and scalable solution.
- Contributed to the development of a performance metrics application using **React** components, optimizing the application's performance and user experience.

Soroco - Software Engineer

Oct 2020 – Dec 2023

Bangalore

- Contributed in the process of standardizing and creating new usable components and helping in development of **design-system**.
- Spearheaded the development of an Angular-based application from inception to launch, coordinating with multiple teams across various departments to deliver a high-quality product on time.
- Contributed to the adoption of **micro-frontend**, using module federation to seamlessly integrate **React** into Angular application.
- Implemented an automated testing stage using **Cypress** within the CI/CD pipelines, resulting in a reduction in the manual testing effort by **40%**.
- Built an **ExpressJS** mock server for an Angular application, facilitating seamless local development by enabling developers to integrate and test APIs more efficiently

Accenture – Associate Software Engineer

June 2019 - October 2020

Mumbai

- Implemented database solutions and migrated legacy data using **MySQL**, ensuring data integrity.
- Resolved software bugs and optimized performance in web applications using **JavaScript**.

EDUCATION

B.Tech, Computer Science – 75.15%

Jaipur Engineering College and Research Center

August 2015- May 2019

Jaipur
